Government Corruption &  
False Flag Terrorism

Greetings Australians

And people from around the World,  
Tuesday, Prime Minister Julia Gillard Labour Government  
passed New Carbon Laws in The House of  
Representatives, they meet Wednesday to pass  
amendments and a few other bills.

Lucky I am not in Canberra I would punch Tony Abbott in  
the mouth, this little weazle lies through his teeth, and  
runs about trying to act like Mr. Innocent, butter wouldn't  
melt in his mouth.

If Julia Gillard and her Government are Anti – Australian  
and working for the Corporations and London / Wall  
Street Banks and Globalist in passing this Tax.

Then so does Tony Abbott and the Liberal / National  
Party too, so running about trying to make out he cares  
for the Australia people and business is a Joke – Farse!

I Mean lets take the Whole Climate Change / Global  
Warming Debate.

## Question 1 ?

### **Conclusion**

It’s a bit late now Tony Abbott to go about screaming about the New Global Warming Tax being introduced into Parliament.

The Whole agenda for World Government is right underway, you & your staff have known about it for years but shut up and said nothing.

You shut up and said nothing Tony Abbott while Australia was being given away behind Australian Citizens backs, even your old boss Ex – Prime Minister John Howard was in on the whole scam.

So seen you sat on your ass Tony Abbott and said nothing, I say to you Tony Abbott **"SHUT UP"** we the Australian couldn't care less.
